

# TSS DISCOVERY IN DUNDEE sometime 1986-87

These are my own TSS Discovery pictures that I took many years ago when I was on the Star Aries (the red ship) in Dundee. This was before the Discovery became a tourist attraction and had only just arrived in Dundee.

On 28 March 1986, Discovery left London aboard the cargo ship Happy Mariner to make her journey home to the city that built her. She arrived on the River Tay on 3 April.
